

## How to become a member

### Mission

Assistive technology (AT) is an essential solution for millions of people, yet there are significant global challenges to providing these technologies. Some of these challenges are unique, but many more are shared across nations and cultures.

The International Alliance of Assistive Technology Organisations (IAATO) is a non-profit informal association of legally established membership organisations from different countries or world regions.

Our Mission is to advance the field of assistive technology (AT) and rehabilitation engineering (RE) to benefit people with disabilities and functional limitations of all ages.

As International Alliance members we are committed to working towards equitable and reliable access to assistive technology through research, policy advocacy, educating people and organisations within and outside of the field, teaching, training, and knowledge translation. To reach our mission we promote communication and information exchange, support each other's efforts, and speak with a more unified voice on international issues.

Interested organisations are invited to contact the Alliance to discuss membership. Members of the Alliance all participate in the process of defining annual Plans of Action.

## Rules for joining the IAATO

Any Organisation sharing the IAATO mission and vision, meeting the membership criteria - and willing to engage in the commitments involved - can apply to become a member of the Alliance.

The Organisation interested in joining the Alliance will have to:

- Prepare an application letter (see template in annex) stating its adherence to the IAATO mission and rules. The application letter should have the Organisation's letterhead and be signed by an authorised representative;
- Prepare a concise one-page profile explaining the nature and the mission of the Organisation. Being an Alliance based on mutual trust factual information such as number of members will not be checked, but the information will be made available on the IAATO website for community control;
- Email the application and profile to the Alliance chairs [hoogerwerf (at) aaate.net & rogeros (at) me.com]

The Alliance chairs will evaluate the application in relation to the IAATO objectives and membership criteria, asking the organisation's representative for additional information if needed.

The chairs will inform the Alliance Board about the assessed applications. The Board will take the applications to the first General Assembly with a recommendation for their approval or not.

Following approval by the General Assembly, the IAATO chair sends out the acceptance letter.

After acceptance, the new member is registered on the IAATO website (under construction).

## Membership

The following forms of membership are offered:

### Full membership

Full membership is open to legally established **membership organisations** that recognize the role of Assistive technology (AT) and/or Rehabilitation engineering (RE) in improving the quality of life and well-being for people, in particular, people with a disability or those who are aging.

They share the following characteristics:

- a. **Advancing AT/RE is their main reason of existence** and their main area of interest.
- b. They have an explicit **non-for-profit interest in advancing AT/RE**.
- c. They are membership organisations themselves; members may be individuals working with AT or independent institutions/organisations with interests in AT/RE from industry, services, research, academia, consumers of technology, national or international funders, or a mixture of these.
- d. They have at least 50 registered and voting members.
- e. They have an elected board that administers the organisation.
- f. They have a minimum of activities going on (e.g. training activities, conferences, publications, other member services)
- g. They represent AT/RE interests nationally, regionally, or globally to decision-making bodies, etc.

### Candidate Membership

Organisations that have the ambition to become full members but that do not meet all the criteria for full membership yet, can apply for Candidate Membership. Candidate members have no voting rights.

## Affiliate Membership

Affiliate membership is open to any interested **membership organisation** that conducts activities surrounding AT/RE, even if these are secondary to other activities, or commercial in nature. Affiliate members have no voting rights.

## Annual fees

The annual membership is based on three criteria: type of membership, number of members and country of registration.

<i>Annual fees in US Dollars</i>	Candidate members	Full members			Affiliate members
		50-99 members	100-299 members	more than 300 members	
High income countries	40	80	175	300	100
Middle/Low income countries	20	40	100	150	50
