

Virtual/Augmented Reality and Social Robotics in the Assistive Technology domain

27 August 2019, 9.00-14.30

Venue: *EON Reality Interactive Digital Center*

Content

- To meet experts in AVR and Social Robotics and to see and experience different applications of Virtual and Augmented Reality and their interaction techniques;
- To learn the basics of Creator AVR: a streamlined creation process that allows subject matter experts to create AVR learning modules;
- To discuss with experts possible application fields in the domain of technology and disability.

Programme

- 8.30 ***Transfer to EON Reality Interactive Digital Center.***
Meeting point: Via Irnerio 4, Bologna (<https://goo.gl/maps/eA2USGoWyxLFQJSYA>)
- 9.15 ***Welcome coffee***
- 9.30 ***Introduction to the Workshop***
Lorenzo Desideri - AIAS Bologna
- 9.40 ***Introduction to EON Reality***
Francesco Salizzoni - EON Reality
- 10.00 ***Hands-on health related AVR applications***
Creating an AVR learning module from scratch based on participants' input.
Emiliano Brogi - EON Reality
- Break***
- 11.45 ***Social Robotics and Intellectual Disability: Examples of applications***
Lisa Cesario, AIAS Bologna
- 12.50 ***Group work: Bringing together AVR and Social Robotics - ideas from participants***
- 13.30 ***Light lunch & transfer to Bologna city center***
- 14.30 ***Transfer to Bologna***
